Answers

VOCABULARY

1. Tonsure

The name comes from a Latin word meaning "shearing".

2. The Sun

Heliophysics also studies the solar wind out to the heliopause and its effects on Earth, such as on the ionosphere and geomagnetic storms. The name comes from the Greek "helios", meaning "sun".

3. 3

It has one central hull and two side hulls.

4. Amnesia

The name comes from the Greek word "amnēsia". Aphasia, by contrast, is a speech disorder, and ataxia a disorder of movement coordination.

5. Recession

A recession is often said to occur when GDP falls for two consecutive quarters.

6. Attic

7. The Middle Ages

8. Tugrik

9. 8

10. Bicameralism

The upper and lower houses usually differ in how members are chosen, their number and their powers.

11. A dye obtained from insects

This carmine dye (E120) is obtained from cochineal insects living on cacti. In medieval Poland it was made from Polish cochineal.

12. 16

Germany currently consists of 16 federal states.

13. Signs

It is also called the general theory of signs. The name comes from the Greek "sēma", sign.

14. Peso

15. Vision

Diplopia means double vision. It can be a symptom of, among other things, multiple sclerosis, myasthenia gravis or the effects of intoxicating substances.

16. Green wave

17. 1

18. No

19. Attaché

The name comes from French and means "attached" or "assigned".

20. Slavic studies
